ENA GMBH

Does this look like YOUR Furnace Pressure Control Valve?

Do you have trouble with Butterfly Valves in your Flue Gas System due to Corrosion?

Are flue gases eating up your valve installations like this?

This is the NEW solution !!

A blade made of CERAMITE[®], integrated into a typical Furnace Pressure Control Valve. Easy to exchange by replacing the old valve, long-lasting blade and reduced maintenance. Ask us about details!

**First Installation in August 2006 at
Corus Duffel Aluminium n.v. Belgium**

**Standard Valve Sizes, other dimensions on demand.
